

Hello Advisors:

A special thank you to all advisors who attended one of the two webinars sponsored by Ohio HOSA and 3B Scientific earlier this month. Those who could not participate can find the link to a recorded webinar at the bottom of this email.

By going virtual Ohio HOSA opens exciting leadership opportunities for all affiliated members. This year your entire chapter will have access to a conference platform from Oct. 7 to December 20. Equally exciting is Ohio HOSA's partnership with 3B Scientific. **With your FLC registration, you will receive a model human heart, 23 lesson plans including 47 quizzes appropriate for use in the face-to-face classroom or a virtual classroom compliments of 3B Scientific. Your students will have access to the program too, but that's not all. You will be able to share this with students who enroll for the next five years!** If you have a Vet Science program, 3B will provide a model feline hip instead. If each HOSA advisor prefers their own heart/feline hip model, we can provide the additional models at cost – \$80 each. Contact me and I can help you with your request.

Consider sharing how HOSA is providing leadership, career information, and instructional tools as a selling point to your district administration as to the value of HOSA to you and your students. We understand the challenging school year ahead, and Ohio HOSA wants to support teachers as well as students with best practices and usable materials for all modes of instructional delivery. Registration cost is tiered based on the chapter's 2019-20 affiliation numbers. The overall cost will be lower than your overall expenses incurred last year plus you will have access to more for all students. The tiered pricing results in a lower cost for the majority of chapters and at the same time allows **ALL HOSA members** to participate in the FLC. **Your chapter's affiliation numbers for 2019-20 were ____ members.**

Below is the tiered cost for the Fall Leadership Conference.

2019-20 Chapter Affiliation Numbers	2020 Fall Leadership Conference Rate NOTE: All HOSA affiliated members receive access to conference programs.
1 – 50 Affiliates	\$299
51 – 175 Affiliates	\$399
176 and above Affiliates	\$499

I encourage you to sign up your chapter so that **all members** have the opportunity to increase their leadership skills and knowledge about the healthcare field and careers.

How do you register your chapter? Enter the National HOSA website Conference Management System. Enter your chapter number and password and click on conferences. Next register yourself and select the appropriate tiered pricing for your chapter. Then register each student that wants to order a tee shirt.

So what will the conference "look" like? From October to December 20, you and your students participating in the FLC can network with colleges and universities on the conference platform, your students can attend over 30 workshops that are currently being planned by industry partners, the State Executive Council team and other leaders. We will include workshops tailored to advisors as well as students. The FLC officially convenes October 26 - 28 with prerecorded workshops. The Conference goes live with webinars, seminars, workshops, and presentations on October 27. A detailed itinerary is being developed and will be released in the near future.

Conference t-shirts may be ordered through the Conference Management System on the National HOSA website by October 6th. Cost is \$10 per shirt. Consider scheduling a HOSA Day on Oct. 27 when all students can wear their t-shirts. The t-shirts ship directly to your school. It's important to get the Purchase Order processed quickly. This enables you to receive your teaching resources from 3B Scientific and for your students to receive their t-shirts.

Registration Deadline? Registration for the conference is October 22nd (tee shirts not able to be ordered after October 6th.) Please contact me with any questions you may have.
